

SIGHT MARK[®]

Laser Boresights

SPECIFICATIONS

Laser wavelength, nm	632-650
LED type	visible red laser
Power, mW	<5
Battery type, AG5 / AG3	2 / 3
Battery life, hrs	1
Range for sighting, yd	15-100
Dot size, in. @ 100yds	2
Operation	on/off end cap
Construction	brass
Operating temperature, F	14 - 122

FEATURES

- ✦ Precision accuracy
- ✦ Reliable and durable
- ✦ Fastest gun zeroing and sighting system
- ✦ Reduce wasted cartridges and shells
- ✦ Compact and lightweight
- ✦ Easy to pack and travel

INCLUDED

- ✦ Battery pack
- ✦ Carrying case

Sightmark laser boresights provide the most convenient and accurate method for sighting in all types of rifles. Simply chamber the boresight like a regular bullet and a laser dot will project to show exactly where the rifle is aiming. Sightmark laser boresights make it easy to sight in any scope without firing a single shot. Live fire is only needed to fine tune a weapon being sighted in order to compensate for inconsistencies, such as bullet drop due to distance. Perfect for hunters, competitive shooters, and law enforcement officials, the Sightmark laser boresight is sure to take the frustration out of sighting in almost any firearm. It's easy to use and will quickly save both time and money by avoiding prolonged live fire tests at the range; use the extra ammo for honing those shooting skills and for the hunt. A lightweight carrying pouch protects the laser for convenient use in the field. The Sightmark laser boresight is available in several calibers and gauges for use with almost all popular rifles and shotguns.
